Making life more colourful

Schenker
Storen

 SWITZERLAND'S NO.1

Let colours speak

Colours liven up your everyday life and with colourful blinds you can add individuality to a building. Whether you select blinds that are coloured discreetly, choosing a tone that matches the facade, or whether you would rather add a splash of colour, it is up to you. Our detailed selection leaves you with almost unlimited possibilities for finding the right tone. The Schenker Storen customer service agents are looking forward to a colourful consultation, providing colourful solutions.

Making life more colourful

Schenker Storen products, metal pieces, slats and frames are available in many attractive colours. You can obtain products that are part of the Schenker Storen colour selection with no extra cost. Coloured lateral guides, slat clips and end rails are available at extra cost. Your customer service agent will be happy to provide you with information about which products are available with or without extra cost. The desired colour combination is best selected by you on site, using original colour samples (for technical reasons the colours printed here are not binding colour samples).

NCS-S 3560-R	330 Purple	NCS-S 4010-Y50R	110 Beige
NCS-S 3560-Y80R	120 Terracotta red		780 Bronze
NCS-S 1080-Y20R	720 Chrome yellow	NCS-S 7020-B90G	220 Moss green
RAL 7016	276 Anthracite grey	NCS-S 8010-Y50R	071 Chalet brown
RAL 9007	907 Aluminium grey	NCS-S 3040-B40G	908 Turquoise blue
RAL 9006	140 Aluminium	NCS-S 4030-R90B	903 Dove blue
NCS-S 3000-N	130 Grey	NCS-S 5040-B	440 Azure blue
NCS-S 1502-G	904 Light grey	NCS-S 4350-R74B	906 Ultramarine
NCS-S 0502-B	010 White		
NCS-S 0502-Y	901 Pure white		
NCS-S 0903-Y27R	905 Cream white		
NCS-S 2020-G90Y	909 Beige green		
NCS-S 2010-Y30R	240 Light beige		

These colours are not binding colour samples. For the definition of the colour tone, our metal colour fan is to be used. Colour discrepancies among the different components are possible due to technical specifications.

Detailed colours

VSR No.	Standard colour	NCS-S No.	RAL No. (approximate)
010	White	NCS-S 0502-B	9003 $\Delta E = 2,8$

Ultramarine

Purple

The poetry of colours

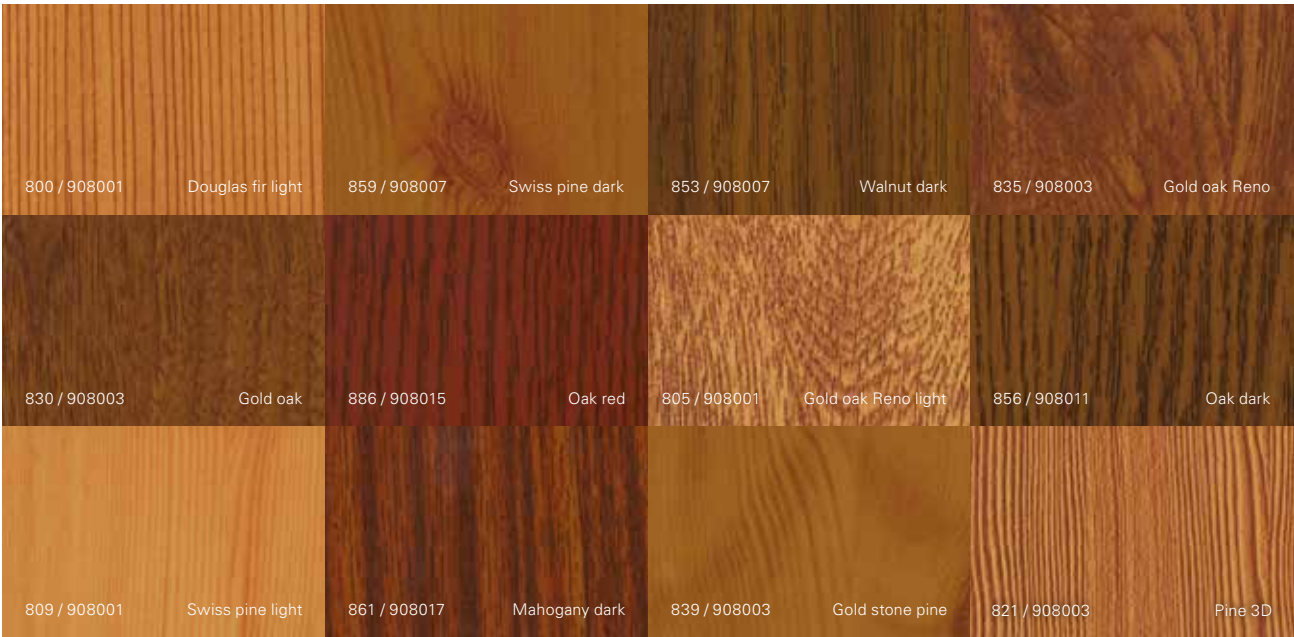

In addition to the Schenker Storen colour selection, we carry all the colours of the rainbow and more: we use the NCS colour system (Natural Colour System[®]) for your individual colouring. With a selection of well over 1,000 NCS tones for external applications, the world of blind colours is wide open for you. Just like the Schenker Storen colour selection, these colours can be used for all metal pieces and slats in our comprehensive range of products. Due to elaborate processing, the individual blind elements are weatherproof and colourfast. We charge an additional fee for individual colour requirements.

Natural Colour System[®]: The Natural Color System[®] (NCS) is a colour system which is oriented along the human perception of colours – independent of the product, material or manufacturing process. NCS describes the appearance of colour hues and makes connections between colours clearly and precisely.

Grown over decades

The wood for our wooden roller blinds is carefully selected: after all, the final product should in no way be inferior to its metal equivalent in terms of robustness and durability. In the appropriate architectural surroundings, roller blinds made of wood are the dot on the "i". Should you wish aluminium roller blinds or even slat blinds with wood finish, a choice of 12 different decors is available.
